

THREEBESTRATED® MEDIA KIT

Story

ThreeBestRated® established back in 2010 is the brainchild of our founder, which was created to connect the best local businesses to the customers free of cost. The firm was born as a result of a sudden noble thought after getting frustrating experience in finding a contractor to fix the garage of our founder.

Our Mission

The main mission of our firm is to reduce the burden of struggling local business and confused customers. We aim and provide a believable bridge to connect both of them. This will solve the hassle and satisfy both ends! We use our very own 50-point inspection that is designed to pick the best business in a locale. It is solely on the quality of the business. Every business listed is independently verified by our trained employees to ensure the standard of our listing. There is no pay or sign-ups involved for both businesses and customers.

Our Vision

Our greatest vision is to expand our service throughout the world with the same quality and standard. We strive hard with excitement towards achieving our long term goal with the satisfaction of helping millions of customers and lakhs of businesses spread around important countries of the world. We take pride in helping an individual in their day-to-day concerns!

ThreeBestRated® is active in 8 important countries

Helping 4.5 Million customers every month

In 9 Industries

Rating over 2,66,428 businesses and counting!

What is 50-Point Inspection?

The 50-point inspection is a specially designed inspection method by our own analysts for ThreeBestRated®. It is an extensive analysis of a business or professional on all aspects including history, excellence, speciality, award, legitimacy & ratings to reviews and even more. The whole process is done by our trained business analysts, which confirms the accuracy of every detail provided. Only a business/service crossing 50-point inspection will be posted on ThreeBestRated®. Every detail posted on the site is consciously hand-picked and updated on regular intervals.
